# STARTRON I

The Startron I is 20 feet of European styled dream machine designed for high performance fun and serious skiing. The Startron I is hand layed in offshore race boat tradition so its good looks are more than skin deep.

Startron's exciting padded instrument panel, complete with deluxe VDO instruments, has the look and feel of an exotic, Italian supercar. The thickly padded wheel, deluxe bucket seats and side control console establish a confident feel of command for the captain. The crew will appreciate such amenities as a covered AM/FM stereo cassette system, a huge ice chest in the dash, motorized sun deck/engine cover and the elegant upholstery.

An Art Carlson design, Starcraft's Startron I has features the competitive water skier will appreciate. The vee-bottom has graduated deadrise for popping up on plane, plus extended chines for greater high speed stability. New items for 1989 include a sturdy stern rail and a padded bow berth. Standard features also include a molded-in swim platform, and a built-in transom ski ring.

Startron I exudes speed with its wraparound windshield and high-tech hull design. But the true Startron story is told when you climb in the cockpit and fire up 260 horses of pure power!

## DESIGNED WITH STYLE FOR HIGH PERFORMANCE AND FUN.

*The crew will enjoy the large ice chest in the dash.*

*This sleek wrap around*

*"The Startron I has a wrap around command console that looks like it was lifted out of a Lamborghini." Popular Mechanics 1988*

ST1

*Plenty of equipment storage under the seats.*

*This motorized engine*

# STARTRON II, III

*Startron II*

Starcraft's Startron Series leaps ahead in 1989 with more luxury and power. The Startron II and III are racing to dealers near you! These two sleek sister ships of the Startron I promise more comfort with sleeper berths and more room for fun.

**STARTRON II** The Startron II has an integrated swim platform gracing her stern. A deluxe bow hatch with a screen allows a gentle flow of light throughout

the luxuriously upholstered interior of the cabin. You'll know the Startron II is a truly exquisite, performance machine when you ease into the plush captain's chair. Full instrumentation surrounds you. Grab hold of the steering wheel and hold on for the fun.

Standard features include, wraparound windshield, trim tabs, padded sun deck, cabin courtesy lights and stainless steel stern rails to name a few.

The Startron III has all this and more!

*The dash area of the Startron II is built for full control.*

*The cabin of the Startron III is designed for comfort.*

## INTRODUCING THE STARTRON EXPANSION TEAM.

*The standard wrap around windshield has a sporty look.*

*The cabin area of the Startron II is perfect for weekenders.*

# SELECT CRUISER SERIES

Select 221C

## THE FUSION OF STYLE AND PRACTICALITY.

An inspiration of California designer Art Carlson, the Select Cruiser has established Starcraft as a major manufacturer of mid-sized fiberglass cuddies. The select 221 exemplifies the fusion of style and practicality. It is perfect for day cruising and overnighting.

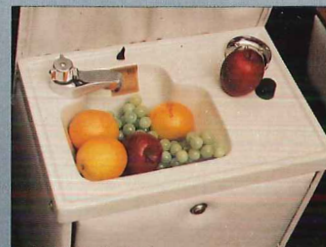

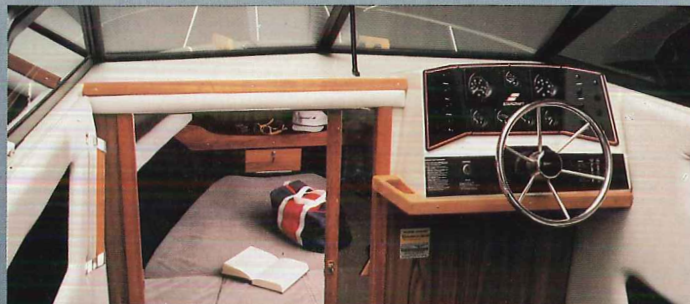

The big cabin features full sit-up headroom, uphol-

stered cushions and plush carpet. Inside the cuddy is a well-designed storage system. Outside is the port seat's icewell and flip-up teak table — a must for entertaining.

A long list of standard features includes an AM/FM cassette radio with four speakers, full VDO instrumentation and plenty of comfortable seating.

*A spacious cabin gives captain and crew comfort after a long day.*

*This sink makes entertaining a breeze and comes standard.*

SC 221C

*This ice well has a teak cutting board as a cover.*

*Lots of teak trim accents the Select 221.*

*A bow hatch with a screen*

# SELECT RUNABOUT SERIES

California designer Art Carlson set new standards for the bowrider scene when he designed Starcraft's Select Series. The 19-foot runabout led *Powerboat Magazine* to say:

"Art Carlson is at it again. The man who over the years has brought more futuristic models to the marine industry than any other designer, has worked his magic

again with the Starcraft 191 Select. The new hull brings several of the leading European styling trends into the 19-foot bowrider market." *Popular Mechanics Magazine* noted: "The Select 191S is the hottest looking bowrider on the water with Euro-Styling to the max — Ferrari red, integrated swim platform, plush upholstery and deluxe appointments." "The Select led the fleet — in

## GREAT INNOVATIONS ON THE BOWRIDER SCENE.

*There is storage under the floor with a teak cover in all models.*

*The contoured windshield is stylish and has a walk through hatch.*

*The bow has ample storage space for all your equipment.*

*Teak drink holders come in handy in the bow.*

*Select 191S*

storage and deck space . . .” “Superb design touches include bucket seats, bench seat, sunpad, contoured windscreens, copious rails and courtesy handles, and rich upholstery” “Deluxe attention to detail doesn’t come cheaply, but the result is a boat with an upscale sense of EuroFlair.”

What more can we say? Well, new standard fea-

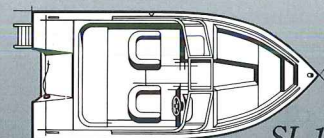

tures for the 1989 select series include a port console beverage holder, convertible top with boot, convenient convertible top storage space, stern bench seat storage and top of the line VDO trademark instrumentation!

Starcraft’s Select Series is manufactured in a variety of styles and sizes to conform to your sport boating demands. 17’ and 19’ models are offered in IO’s and OB’s.

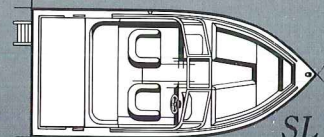

*This makes a great place to store the standard convertible top!*

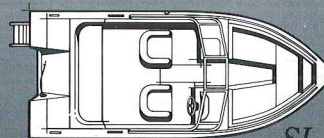

*This dash, with standard VDO instrumentation, puts you in charge.*

*SL 170*

*SL 171S*

*SL 190*

*SL 191S*

*You’ll find plenty of storage in the stern of all the Selects.*

# ULTRASTAR

Finally, the Starcraft Ultrastar! Every inch of this powerful inboard exudes style and grace. Combine the superb performance of a proven ski machine with the flare of European styling and the results will make even the most serious skier weak in the knees!

The boat is designed with the comfort and practical needs of the serious skier in mind.

The sweeping Italian design integrates a huge swim platform with teak trim so weary skiers gain solid footing when reboarding. A deep-cushioned lounge lays

aft of the padded engine hood for luxurious cruising. There is plenty of storage space fore and aft to accommodate skis, ropes and jackets. Plenty of plush seating is located ahead of the sleek windshield for spotters in the bow. Comfortable, fully adjustable, captains chairs in the helm section make driving a full-command experience. The complete VDO instrumentation and a convex rearview mirror give the captain total control. The Starcraft Ultrastar is everything you, the serious skier, need.

## TURNING HEADS AND BORN TO SKI.

*Only a serious skiing machine has a built-in ski pylon as standard equipment.*

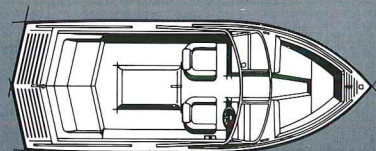

*This plush padded engine cover adds to the luxury and comfort.*

*There is a lot of storage space for skis and jackets in the sidewalls.*

*Ample storage lay under the bow seating.*

*There is even more storage under the rear lounge.*

*Ultrastar*

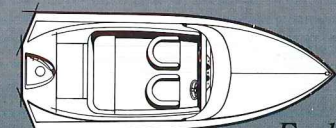

# HERITAGE AND EAGLE

## DIFFERENT CONCEPTS - SAME RESULT: FUN!

**HERITAGE** Starcraft brings the classic design of the old mahogany inboards into the 1980's with the new Heritage. Starcraft has accented this time-tested design with standard, functional features for years of boating pleasure. Standard features include a thick tinted-glass windshield with a chrome-coated brass frame, a dash visor, teak swim platform, convertible top with boot, textured non-slip deck, ski pylon with ring, bow and stern lifting rings, loads of storage in any direction and many more. Starcraft Heritage carries on the tradition of a boating legend.

**EAGLE** If you're looking for the most exciting high performance outboard ski and pleasure boat around, fly with an Eagle. In 1985 Eagle earned first place honors over 18 other racers and set an official speed record for the National Outboard Association. The Eagle is the hottest production fiberglass outboard around! With these standard features it's easy to see why: wrap-around windshield, carpeted ski storage under the foredeck, carpeted interior, adjustable helm bucket seat, swivel companion bucket seat, a cassette radio with two speakers and a maxi power rating of 175 H.P.

*Eagle*

*Heritage*

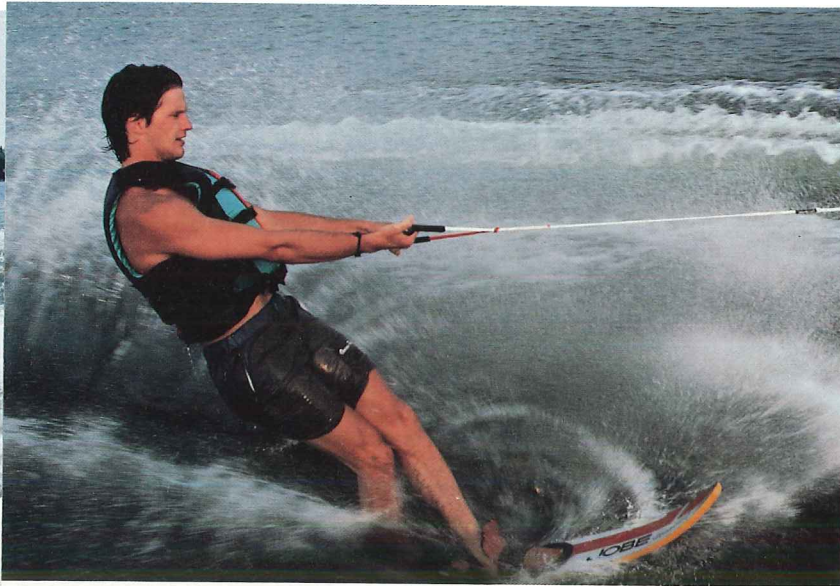

*The Eagle has a special ski locker under the bow section.*

*This is the best built windshield you'll find*

*Both of these fun machines have side storage.*

*Plush upholstery insures*

# MEDALIST SERIES

Just last year the Medalist Series, our No. 1 selling fiberglass runabouts, received new hull configurations for smoother, faster cruising. In 1989 Starcraft has added more improvements as standard features. We've included sturdy grab rails in the bow section and a teak swim platform now graces the port side of the stern. All Starcraft Medalists come standard with a convertible top and boot.

Of course Starcraft will continue to offer the same standard features that have made Medalist the fastest

*With a command console like this you can see why Medalist is our best seller!*

*Plenty of bow storage makes the Medalist a winner!*

## STARCRAFT'S BEST SELLER, JUST GOT BETTER!

*Sleeper seats are perfect for those nights under the stars.*

selling luxury runabouts in our line. The first of these great standard features is the price! Medalists will continue to be offered at the same economical prices that make them affordable to anyone who enjoys skiing and pleasure boating.

The Starcraft Medalist Series offers features as standard equipment that many boat companies sell as options. These features include: an icewell in the port bow, in-floor storage with a teak lid, cassette radio with

2 speakers, lockable glove box, and plush carpeting.

Medalists come in three sizes: the 1500, the 1700 and the 1900. Some are available in IO and OB.

The 1700 and 1900 models offer more standard features such as: stern ice well, bilge pump, cup holders and many more.

The Starcraft Medalists are loaded with standard features at an affordable price. A Medalist is the best value for your recreational boating dollar.

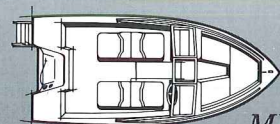

*Bow storage makes a good place for all your stuff.*

*Floor storage comes standard with a teak hatch cover.*

*There's an ice well in the stern of the 1901.*

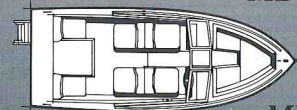

*This teak swim platform is standard equipment on*

MD 1700

MD 1701

MD 1900

# SUPERSPORT SERIES

*Super Sport 180*

The Starcraft Supersport models are the most popular aluminum runabouts because of their stylish economy. The lightness of aluminum saves fuel and dollars when running across the water or trailering down the road. Our Supersports are low priced boats that don't appear low priced.

Start with the interior. Covered with tough, yet tastefully attractive fabric, the sleeper seats deliver more plush comfort than ever. There's plenty of padding and storage space along the interior sides and in the bow.

Supersports come in four models. This makes

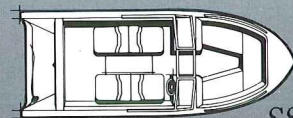

them perfect for almost any sized family. The Supersport is a great first boat because it trailers easily and is so affordable. But once again Starcraft has loaded the Supersport with standard features most manufacturers offer as options. Every model in the Supersport Series comes with: a convertible top with boot, plush marine carpeting, cassette radio with two speakers, bilge pump, running lights, in-floor storage with teak lid, lockable glove box, adjustable sleeper seats on the 16 and 20 and an interior light! The Supersport 181 and 201V have many more standard features for your comfort and enjoyment.

## THE STARCRAFT SUPERSPORT IS PERFORMANCE AND DURABILITY DEFINED.

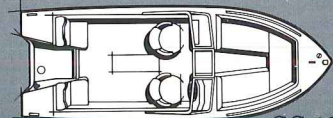

*There is a cassette radio with two speakers built into the glove box.*

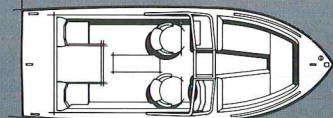

*There's stern storage in the SS 180 along with removable seats.*

SS 160

SS 180

SS 181

# CHIEFTAIN

## THIS LIGHT WEIGHT CRUISER IS BUILT TO LAST.

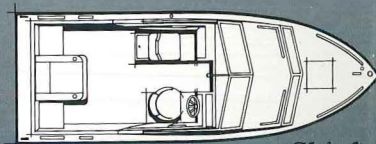

*This spacious cabin can be ordered with an optional head.*

*The stainless steering wheel and full instrumentation give the Chieftain a full command feel. Stereo also comes standard!*

The Chieftain is big, beautiful, trailerable and it won't break your budget. The Starcraft Chieftain is built on the same hull as the legendary Islander 221V. Starcraft's Islander Series has been time tested as the back bone of the Great Lakes Fishing Fleet. So you can count on the Chieftain to be a durable and dependable luxury cruiser.

Starcraft's 22-foot aluminum cruiser has a roomy cuddy, lots of walkaround space and plenty of creature comforts like a built-in cooler with a teak lid and drink table. You'll be amazed at the long list of standard features! Remember, the lightness of aluminum means better gas economy when trailering and on the water. Check out a Chieftain and check into a fine pleasure boat experience.

*Chieftain*

*The plush captains chairs are adjustable.*

*International lighting is*

*This built in cooler has a flip-up teak tray and a cutting board lid.*

*There is lots of storage along the padded side walls.*

# STARDECK PONTOONS

Starcraft's Stardeck Series of pontoons has come of age. For 1989 we pack them full of extra standards like a fiberglass console that has complete instrumentation, 3/4" plywood deck, plush carpeting, 27" deckrails and gates, 2" deep aluminum floor beams and built-in 20-gallon fuel tanks. But that's not all, most Stardecks also come standard with cassette radio, horn, drink holders, front and rear sofas and dinette. There is plenty of storage space under the lounge seats and in the back deck.

America has learned what great fun a pontoon can provide. Be it entertaining friends on a sunny afternoon, or taking a sunset cruise with the family, pontoons have found their niche in the American pleasure experience. Once you compare you will realize that the Starcraft Stardeck Series has the quality of construction and list of standard features you need.

See our full pontoon pamphlet for more complete information.

## NOTHING'S AS RELAXING AS A STARDECK.

*A padded fiberglass console with cassette radio is standard on most models.*

*See our Stardeck pontoon catalog for more complete details.*

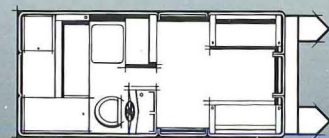

*This drink table is a great option on all models.*

*There's loads of storage under the bow seating.*

*This removable ice chest will sure make things easier.*

*Plenty of storage under the stern seating too!*

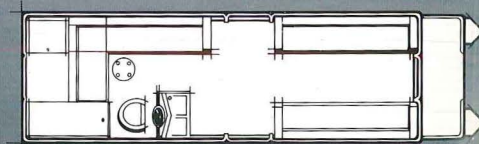

*The fold-up privacy room is a great place for changing or for the optional head.*

# EXPERIENCE THE WORLD OF STARCRAFT.

Starcraft has been a pioneer in the recreational industry since the early 1920's. Since Starcraft manufactured the first metal boat we have produced more boats than any manufacturer in the world. We continue to produce an incredible variety of boats to fit the needs of the marine industry throughout North America. "Quality and Integrity" has long been Starcraft's motto. We believe in building products that last and in backing those products with superb service and fine craftsmanship. The public's demand for our products is the measure of our success. We continue to grow.

In 1964 Starcraft introduced the crank up camping trailer to the RV industry. Since then Starcraft Recreational Vehicle Division has diversified into fifth wheels, travel trailers, truck campers and motorhomes. Built with the same quality as other Starcraft products we are increasing

our consumer base in the RV industry and will continue to grow with quality and innovation.

In 1977 the Starcraft pioneer spirit triumphed again as we marketed the first truly automotive luxury van conversion. Starcraft's Automotive Division continues to produce the finest in automotive conversions for the most individualized and discerning tastes to this day. Starcraft conversions remain at the pinnacle of the industry in design innovation, quality and resale value. This is because Starcraft has listened to consumer demands over the years and has met the challenge to satisfy the public. This is the reason we remained

an industry leader while other companies faltered. After all, we understand the automotive conversion market because we created it.

Experience the world of Starcraft.
